21 years old, born August 2003, France

Interests

- **Reading:** Philosophy, poetry, fantasy, classical literature, and realism
- **Sailing**
- **Sports:** Soccer, swimming, and martial arts (judo/jiu-jitsu, 4 hours per week)
- **Music:** Piano playing and classical music appreciation

Skills

Passionate about science, I have always been eager to understand and create. My strong background in mathematics, physics, and theoretical computer science allows me to approach computing in a broad and in-depth manner.

Programming
C, C++, Caml, Shell, JavaScript, Java, Python, PHP, SQL, Git, LaTeX

Bachelor's Level in Mathematics, Physics, and Computer Science
Graduated with the highest distinction

Languages

French: Native language

English: C1 level, IELTS 7/9

Spanish: B1 level

Alex Tual--Hamon

Computer Engineering Student

Rigorous, open-minded, and dynamic, I am passionate about computer science and mathematics, as well as sports and discovering new cultures

Private Tutor & Food Delivery Courier

Part-time student jobs: Deliveroo bicycle courier and private tutor in mathematics and physics for two students (aged 15 and 17), 3 hours per week.

Since 2019
Academic & Personal
(Available on GitHub)

Various Programming Projects

Worked on several coding projects, both individually and in teams. Preparatory school final project: Modeled the impact of human behavior on traffic congestion. Other projects: Video game development, virus modeling, password manager, cryptography
GitHub: https://github.com/alextualh

2021 - 2023
Student Organization
Nantes

President of a Student Association

Organized sports events and tournaments for 150 preparatory school students. Managed budgeting, logistics, and scheduling.

March - May 2024
Personal experience

Sailing Tour of Brittany

Solo multi-stage journey from Saint-Malo to the Gulf of Morbihan on a 7m renovated sailboat.
Deeply attached to the sea and my home region, this experience allowed me to explore it thoroughly while pushing my limits.
